

Inland Empire Utilities Agency Approves Increase in Sewer Rates

Fontana, California, June 7, 2010. The Inland Empire Utilities Agency (IEUA) has approved an increase in their monthly sewer service rate. The approved increase of \$0.39 will adjust the monthly sewer service charges from \$18.12 to \$18.51 per equivalent dwelling unit (EDU) per month. This effectively means Fontana households in the IEUA service area will pay 39 cents more a month for sewer service charges. For most residents the sewer service charges are either billed directly from the City or included in property tax statements.

The new rates will become effective July 1, 2010. The IEUA indicates the rate increase is necessary due to a reduction in revenues the agency receives and a reallocation of some property tax revenue to support debt service costs for recycled water projects.

For more information visit www.ieua.org for the latest on the sewer service rates.
